HOW PRICING WORKS

- Screen print is priced **per color, per location, per piece** — a 3-color left chest is 3 colors.
- Embroidery is priced **per logo / location, per piece** by stitch count; **\$8.00 minimum** per piece.
- Add **15%** to screen print for an underbase / white base on dark garments.
- Additional locations price at the same matrix for their own color / stitch count.

NOTES

- * Embroidery cell is at the **\$8.00/piece minimum**; the raw rate would be lower.
- = not offered at that color count / quantity (quoted on request).
- Small-run screen print (under 12) is a **flat charge for the whole order**, not per piece.
- Garment cost is separate. Art, digitizing, and rush fees quoted as applicable.
